The Cycle of Violence

- ✗ Tension building phase "walking on eggshells".
- ✗ Battering phase may be verbal, physical, sexual, or psychological abuse.
- ✗ Honeymoon phase apologies, gifts, promises to stop the behavior.

If you are concerned that abuse could be a pattern in your home, either because of the way you are being treated or the ways you treat others you love, please call for help.

Encourage friends who may have problems to call also! **Call the hot line number, a member of the clergy or health ministry.**

To self-justify their behavior, the person abusing becomes convinced that the person abused deserved even more severe punishment. This is why abuse escalates over time.
